# Car sharing in Arlington

Based on 1,291 responses

- 23% of respondents have used a car sharing/transportation network service such as Uber, Lyft, Sidecar
- 30% of respondents have carpooled with a neighbor
- 4% have carpooled with someone they didn't know
- 63% of respondents would carpool with a stranger if a safe and reliable option was available
- The average respondent household has 1.8 smartphones

# Common themes of comments provided by survey respondents

Based on 1,291 responses

- Traffic along Mass Ave. creates delays and inconvenience for both automobile drivers and transit users on buses (77, 79) that travel on Mass Ave
- Traffic at the intersection of Route 16 & Mass Ave was identified as a major cause of delays
- Commuters are happy with the number of transit options in Arlington, but would welcome more; many wish for rail or street car service
- The 62, 67, and 76 buses do not have enough frequency during peak commuter hours
- Many wish there was a bike sharing option such as Hubway available in Arlington
- Bicyclists need to do a better job sharing the road with cars and vice versa
